## POWER SEASONAL DEMAND

**DURALAST POWER GRID PROVIDES 70% BETTER POWER FLOW THAN STANDARD GRIDS**

**Fully-Framed Stamped Power Grid** helps prevent shorts and increase electrical flow. Improve charging with 66% more corrosion resistance\*

\*Source: Claris, 2019

Reliable OE replacement for the cost-conscious customer.

Meets or exceeds OE for the customer who wants a dependable factory replacement.

Designed to outperform OE with maximum number of plates and grids to deliver the most power during starts.

Enhanced Flooded Battery (EFB) delivers faster recharge for consistent power on vehicles with start/stop technology and more power needs. Optimized plate and grid structure prevents corrosion and increases cycle life 15 times more than conventional batteries.

Absorbed Glass Mat (AGM) battery provides starting power, deep cycle capability, and advanced technology for vehicles with accessories that demand greater power. Designed to deliver 2 times the cycle life of conventional batteries.
