Permatex

Kit contains both anti-seize and dielectric grease

Kit contiene grasa antiagarrotante y grasa dieléctrica

Don't Ignore Warning Lights!

Tune-Up The Right Way

Items you may want to check to do the job right

Replace your oxygen sensors in pairs with every tune-up

Change your fuel filter and protect your vehicle's fuel injection system

Carbon deposits and eroded metal terminals cause distributor-cap failure

! DID YOU KNOW? Driving a vehicle with a non-flashing generic code will almost certainly cause an increase in emissions and a decrease in fuel economy-which can be robbing you of up to 20% fuel efficiency at each fill-up. Looking at it a different way, based on \$3 per gallon, typically you could be wasting \$7.50 per fill-up or upwards of \$300 per year.

Change spark plugs wires before they cause a misfire

Replace the PCV valve to prevent sludge and contaminant buildup

Change your air filter every 12,000 miles
