**HAVE YOU CHECKED YOUR BELTS LATELY?
DON'T JUST LOOK FOR CRACKS...**

- Today's belts experience material loss over time and wear like a tire
- This type of wear increases the space between the ribs causing the belt to slip resulting in improper engine cooling

REPLACE RADIATOR HOSES IF LEAKING OR...

HARDENED

A hardened hose gets brittle,
it can easily crack and break

CRACKED

Heat and chemicals can cause a hose to crack
as it ages, causing it to break and start leaking

SWOLLEN

Lost elasticity and swelling under pressure
may be followed by the hose rupturing
